

# Butterfly Origami

# Step 1

- We start with a square sheet of paper.
- Decide which side is the back of the paper
- Place the paper on a flat surface and
- fold the square to make a triangle

## Step 2

- Unfold the triangle
- Fold across to make another crease

# Step 3

- Turn the paper over
- Fold the square into a rectangle
- Then unfold

# Step 4

Fold across to  
make another rectangle, then unfold

It should look like a Union Jack

# Step 5

- Use the creases to help you fold the paper into a pyramid shape.

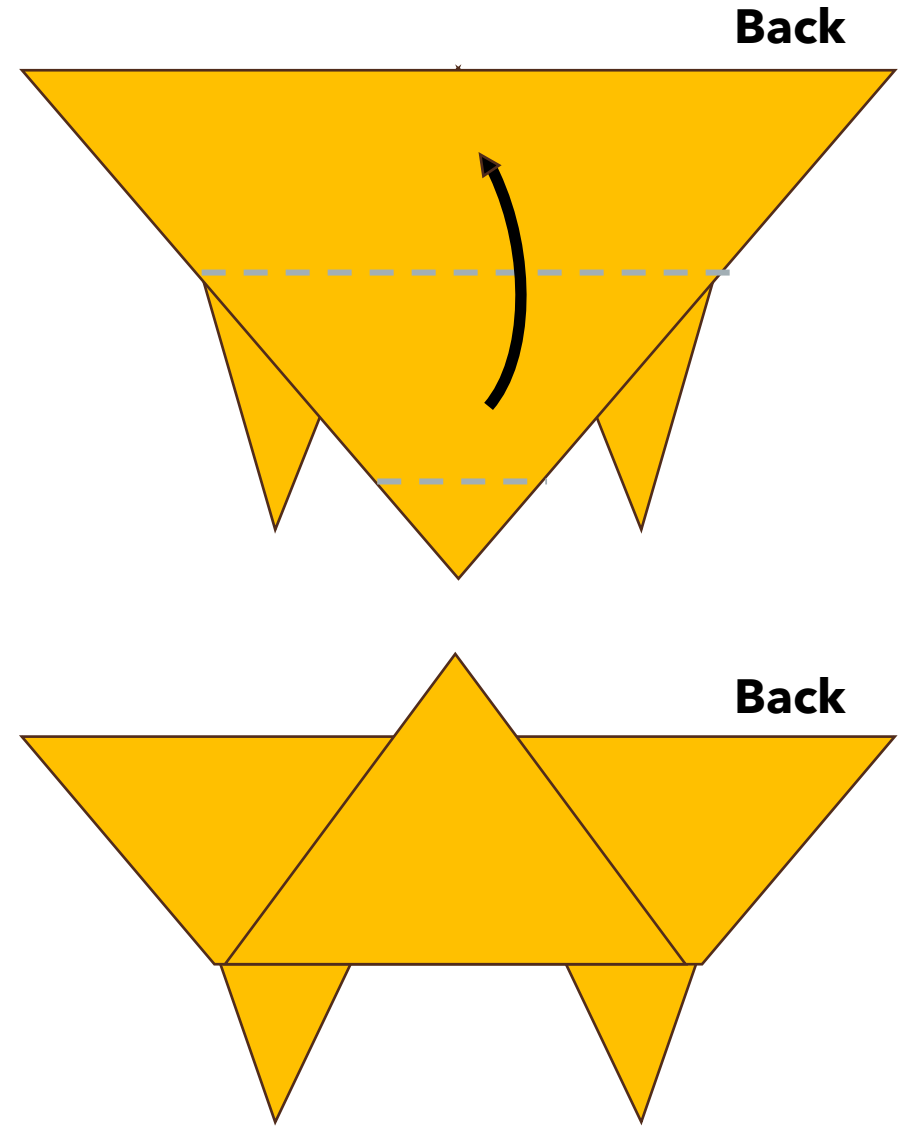

# Step 6

- Lay the pyramid flat with the point facing towards you.
- Fold the two front wings down. So it looks like the figure on the right.

# Step 7

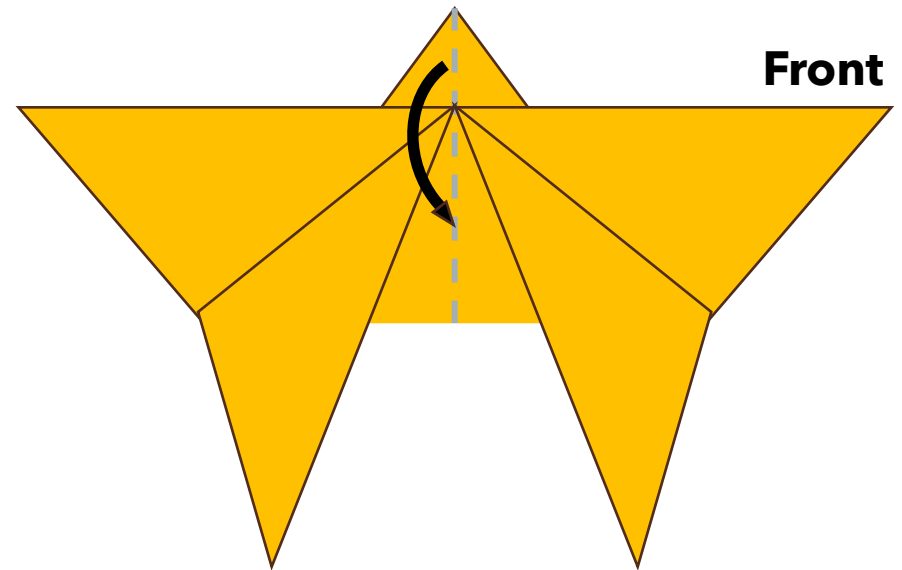

- Flip the butterfly over
- Fold the lower part of the tringle up. Expose a little tringle on the top.
- Extend the point far enough over the top edge over the paper so that two 'wings' lift from the table.

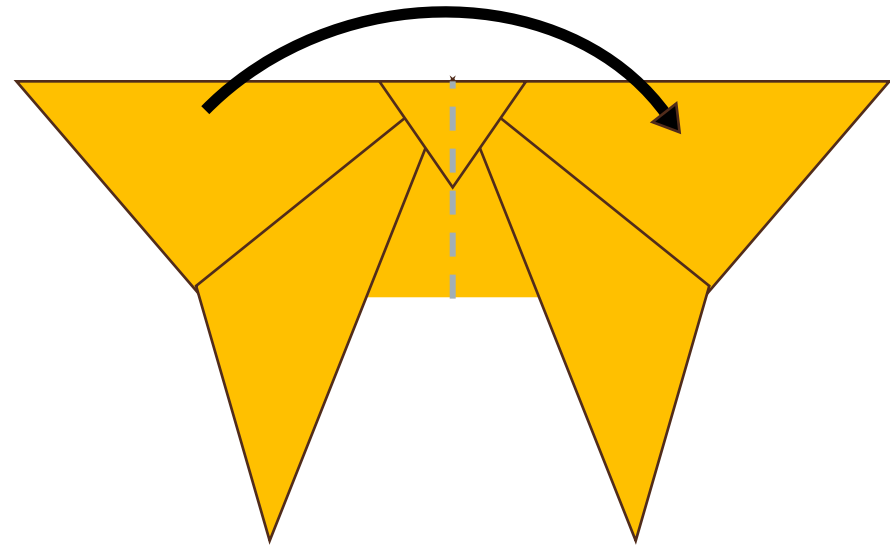

# Step 8

- Flip over again.
- Fold the little tringle down.

# Step 9

- Now fold the paper across.

Finish
